## Sharon Schwalm, Practice Administrator

**Sharon Schwalm**, has extensive experience in concierge medical practice management and healthcare operations. Originally from Rochester, New York, she moved to Syracuse in 1988, where she built a successful 17-year career as an Account Manager with a Fortune 500 company. Seeking a warmer, sunnier climate, she relocated to Sarasota, Florida in 2004.

In 2005, Sharon joined Dr. Raymond Hautamaki to assist with office organization and operational needs as he began his concierge medicine model. Her role quickly expanded, and in 2008 alongside Dr. Hautamaki, she helped launch a new concierge medical practice. Since that time, Sharon has been instrumental in the growth and ongoing success of the practice. Today, with five physicians, she oversees every aspect of the business, providing strong leadership, continuity, and hands-on management of daily operations.

Outside of the office, Sharon treasures time spent with her husband, their three children, and most especially their grandchildren. She and her husband enjoy traveling, exploring new destinations, and spending quality time with friends and family whenever the opportunity arises.
